

Ferdighetselementer for sykkelparker

STITEKNIKK

Gode sykkelferdigheter kommer ikke av seg selv. De må trenes på!

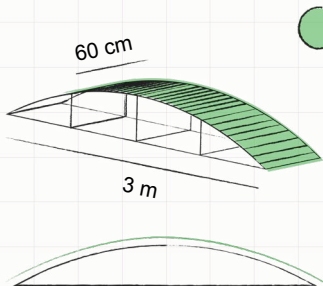

Våre ferdighetselementer gjør det enkelt å lage en underholdende og progressiv ferdighetspark tilpasset dine behov. Enten det er for å lage et kompakt treningsområde på f.eks en parkeringsplass, eller for å krydre opp en eksisterende løype i skogen. Elementene skrues fast på noen minutter, og kan enkelt demonteres igjen og flyttes ved behov. Høy egenvekt og robust design gjør elementene stabile og enkelt å vedlikeholde.
